PROFESSIONAL EXPERIENCE

National Bank of Greece | Thessaloniki, Greece — Branch Operations & Digital Banking Intern / Oct 2025 - Dec 2025

- Supported a high volume of branch customers, providing guidance in the banking hall and maintaining professionalism in demanding service situations.
- Assisted with customer data updates and KYC-related documentation, including renewal of expired documents, signature handling, and card issuance/delivery support.
- Provided digital banking assistance, helping customers use e-banking and the National Bank of Greece mobile app and resolve basic access or usage issues.
- Explained selected banking products and services, including prepaid cards and accounts, checked transaction movements where appropriate, and scheduled appointments with specialized advisors.

SELECTED ACADEMIC PROJECTS

London Wheels: Real-Time Bike Availability Web App – Individual Project

Front-End Developer (React, TypeScript, Tailwind CSS, Leaflet.js)

- **Web App Development (SPA):** Developed a responsive platform to visualize the availability of shared bicycles in London in real-time.
- **Data Integration:** Connected to a third-party REST API (CityBikes) for secure, instantaneous live data extraction and processing.
- **UI/UX & Mapping:** Designed a minimalist interface using Tailwind CSS and embedded an interactive, high-performance map (Leaflet.js) for seamless navigation without visual clutter.
- **Functionality:** Implemented a "Smart Search" feature and a "Favorite Stations" system utilizing local browser storage (LocalStorage).

Market Research & New Product Concept - Team Project

- Collaborated in a 4-person team to develop a new product concept and gather structured market feedback.
- Conducted primary research (interviews, questionnaires) and analyzed data using Excel and SPSS to support strategic conclusions.

Financial Statement Analysis of JUMBO S.A. - Individual Project:

- Analyzed annual financial reports (2019-2023) using ratio-based reasoning to assess company performance, size, and business health.
- Presented evidence-based conclusions and personal evaluations in a structured academic report.
